**FLOW-EASY Sulfuric Acid Drain Opener**  
Professional Strength

Fast acting FLOW-EASY is the drain opener that professional plumbers reach for first. It can be poured into standing water, dissolves grease and other organic matter in all types of drains, and is safe enough to be used in toilets, septic tanks, sinks, tubs, and PVC pipe.

- UNBLOCKS – sinks, tubs, toilets, and cleanouts
- SAFE FOR – PVC pipes and septic systems
- POWERFUL – Proprietary formulation of 93% virgin sulfuric acid with inhibitors to dissolve any organic material including coffee grounds, grease, hair, paper, sanitary napkins, rags, sludge and/or soap
- FAST – Professional strength to unclog drains fast; the clog is typically free-flowing within 15 minutes of treatment
- NON-DESTRUCTIVE – Will not harm PVC pipe or septic tanks, and is safe to use for all common drains, cleanouts, sinks and toilets
- SAFE – No blowback and little to no odor, plus safety-focused packaging
- Low odor compared to other sulfuric acid drain openers
- Available in pints, quarts, half gallons, and gallons
- TRUSTWORTHY – Made in USA

**CRYSTAL CLEAN Sodium Hydroxide Drain Opener**  
Professional Strength

Activated with cold water, eliminating the need to boil water. Creates heat to melt through grease and hair. Best for kitchen grease clogs and safe for all pipes, septic tanks, & cesspools. Less work; faster results.

- UNBLOCKS – sinks, tubs, toilets, cleanouts
- SAFE FOR – PVC, metal and septic systems
- FAST - 8 minutes or less
- 2X as fast as the leading competitor (Drano, Liquid Plumber), using only half of the full product
- EFFICIENT - better productivity time for plumbers & consumers
- ACTIVATES - in cold water versus other brands who need hot water
- COMPACT - allows more room in a plumber's van or tool box, & more room for a consumer at home under the sink
- TOUGH - breaks up grease & can dissolve hair

**LiquiTube Professional Tire Sealant**

“The Original Liquid Inner Tube”<sup>®</sup>

*One Time Application; Life Long Tire Protection*

**Prevents & Seals Flat Tires**

- Specially designed for LOW SPEED (Non-Highway) Tubed and Tubeless Tires
- Permanently seals 1/4" tread punctures in all tires
- Permanently seals up to 1/2" tread punctures in industrial tires
- Instantly seals bead, rim & weather cracking leaks
- Effective down to -25°F
- Environmentally friendly
- Will not harm tire, wheel, or rim

**How it works:**

LiquiTube installs easily through the valve stem once the valve core is removed, and does not require mixing or shaking prior to use. Centrifugal force caused by the spinning tire allows coating of all inner surfaces and rim to prevent all forms of air loss including rim, bead, and porosity leaks. The adhering agents in LiquiTube allow it to stay suspended and not migrate back to the bottom of the tire. Air pressure in the tire forces the fibers and plastics in LiquiTube into punctures and leaks, and the flexing of the tire helps pack more of these fibers and plastics into those punctures and leaks, making permanent seals.

**LiquiTube is environmentally friendly:**

- Made of 88% Recycled Material
- Non-Hazardous Material
- Non Flammable
- No Recorded Flash Point
- 100% Water Soluble For Easy Cleanout
- Meets EPA Standards for Municipal Disposal
- Waste sealant can be washed down the drain
- Extends Tire and Casing Life Keeping Tires Out of Landfills
